2024 Dues

It's time to renew your annual club dues for 2024. Your dues help the club improve our club repeaters, offer special programming, and make long term plans to serve our members advance their skills in the hobby.

1-year membership is $20.

Dues can be paid online at fcarc.club via PayPal or at the next general membership meeting using cash or check.

PayPal

SOLE BURNER

Fighting cancer one mile at a time

The American Cancer Society has requested the FCARC to provide communications & logistics for the Sole Burner 5K Walk-Run on **Saturday May 11, 2024**. We will need about 25 operators for this event to successfully cover the entire perimeter of the 5K course.

This is a great event for new members to participate in and a favorite for those returning.

Please watch for updates, sign-up process and all the latest details of this event. You may contact me directly, 920-205-2366 voice/text if you have questions, interest or would like to sign-up early.

Best Regards,

Brian Long, KB9LRD

Notes From the March General Membership Meeting

Per the organization bylaws, a quorum was achieved. There was a quorum with a total number of 51 in attendance. Mike Moore (WI9MMM) called the meeting to order at 7:01 p.m. Roll call was taken by all members in attendance.

Committee Reports

Secretary – Gene Wall (KE8KWF) – Nothing significant to report.

Treasurer – Donna Mendyke (KC9THF) – not in attendance.

Membership Coordinator – Deenah St Claire (KD9TXA) – a reminder was shared to renew your dues

Technical Director – Larry Peterson (WA9TT) introduced Andy Lawton (A9AJ) to present the Tech Tip for the night. Andy explained the purpose of the time out function on a repeater. The time out function is designed to protect the transmitter.

Members at Large – If you have an idea for a program that you can give or would like to see, please speak to Dave (W9RAG), Rudy (KD9RPW) or Rod (K6ROD).

Special Committees

Repeater Committee – Andy Lawton (AJ9L) – All of the repeaters are working and there are no reported issues.

Website Committee – Dave Sprangers (ND9DW) – Dave explained that a new website is being designed. The future website will not require users to log into the site. All data that requires a login is hosted on hamclubonline.com.

Maplewood Middle School Station – Joel Kasper (WI4WD) – Mike Moore talked to the principal. We now need a teacher to want to bring us in.

License testing – Rick Kosiorek (WJ9K) – The next testing will be on March 23, 2024

Strategic Vision – Terry Schilling (N9AOT) suggested sponsoring Technician classes in the fall.

Public Information – Carol Young (W9PIO) – Carol has a new email address if anyone has items that they wish to be disseminated. Her email is w9pio24@gmail.com.

Special Business

Elections: Nominations are being taken for the Vice President, Treasurer, and Members at Large. Elections will be held at the May general membership meeting.

New Business

Annual Banquet Recap: Mike Moore introduced Larry Peterson (WA9TT) as the Ham of the Year for 2023.

Old Business

Walk MS: Sprangers (ND9DW) -- As of this time the club has not yet been asked to support the event.

Appleton Flag Day Parade: The parade is scheduled for June 8, 2024.

Sunshine Hamfest: Tony Mach (AB9IO) queried the membership if they thought we should move this year's Hamfest to a different location where we would not need to pay for the location and therefore make the event free. He would investigate with some of his contacts in Neenah. Some of the members suggested reserving a city park, or asking permission to use the parking lot and community room at the Maplewood Middle School.

ARRL Field Day: Terry (N9AOT) updated the membership on the planning for this year's event on June 22-23, 2024, at the Scouting headquarters building.

EAA: Jon Oldenberg stated that he has been in contact with EAA. Next month, support opportunities will open up to the general membership.

Show and Tell –

Andy Lawton (AJ9L) showed us a return/loss bridge. He made it available for the membership to look at during the meeting.

Program – Terry Schilling (N9AOT) gave a presentation on the topic of Yaesu WIRES X System Fusion.

Reminders

Next Board of Directors Meeting is April 8, 2024 and the General Membership Meeting is April 15, 2024.

Terry (N9AOT) is still looking for someone to host the analog node for the Yaesu System Fusion room.

50/50 Raffle – KC Ross (KG9JP) won cash.

Adjourn at 8:10 pm

Celebrating International Marconi Day

An Internet "Find" from Gene Wall (KE8KWF)
reprinted from daysoftheyear.com

Amateur radios, point-to-point contacts, high-frequency wave transfers, a mysterious yet attractive prize for the most connected stations…. All of this might just sound like the beginning of a quirky yet adorable B-movie. But don't be fooled!

The true topic of this piece is not actually a sci-fi film at all. Instead, this is all about International Marconi Day. No, not macaroni day (because that's another day altogether). This is Mar-co-ni Day. Named after a scientist who essentially changed the connectedness of the world as we know it, this is an important day that might be new to many but is actually a really fun day to learn about and also to celebrate!

In reality, the essence of International Marconi Day is a 24-hour amateur radio event which celebrates the career of Italian wireless communications pioneer, Guglielmo Marconi. The event takes place each year on the Saturday closest to Marconi's birthday, which was on April 25, 1874.
Never heard of Guglielmo Marconi? Well now is the time to change that!

In addition to being an inventor, Mr. Marconi was also an electrical engineer who was especially known for his work on long distance radio transmission, as well as the development of a radio telegraph system and Marconi's law.

In fact, Marconi was credited as sending the first radio transmission across the Atlantic Ocean in 1901. Because the Italian government wasn't necessarily ready for Marconi's inventions, he took them to England where he set up his activities in Cornwall. And that is why the location of the first transmission across the ocean (to Newfoundland) was in Cornwall rather than Marconi's native Italy. Because of his work, Marconi was also the shared winner of the Nobel Peace Prize for Physics in 1909 for his contributions to wireless telegraphy. Marconi has also been the recipient of several honorary doctorates from well-known universities.

International Marconi Day provides an exciting throwback to the days when a connected planet Earth was but a bold dream and only a few exceptional people, such as Marconi, saw the value in it. International Marconi Day can foster an appreciation for the realization of this dream from so long ago, as well as looking toward what other types of inventions might be around the corner.

Although, today, the internet is mostly the medium of choice for global communications, the idea behind International Marconi Day is to keep the spirit of invention alive. It inspires people to dream about the ways scientists and science could impact the future for the better.
Now is the perfect time to celebrate International Marconi Day!

International Marconi Day Timeline

April 25, 1874 - Born at the family's house in Bologna, Italy, Guglielmo Marconi spends much of his early childhood traveling with his mother and brother.

1895 - By August of this year, Marconi's transmissions reach up to 1.75 miles. The Italian government isn't interested in his invention so he soon moves to England.

1901 - Marconi's radio signal travels from Poldhu in Corwall, England to St. Johns, Newfoundland – a distance of over 1800 miles.

1929 - Marconi's achievements are awarded, with Italy's King Victor Emmanuel III making him a Marchese (marquis).

2024 ARRL Field Day Theme: Be Radio Active

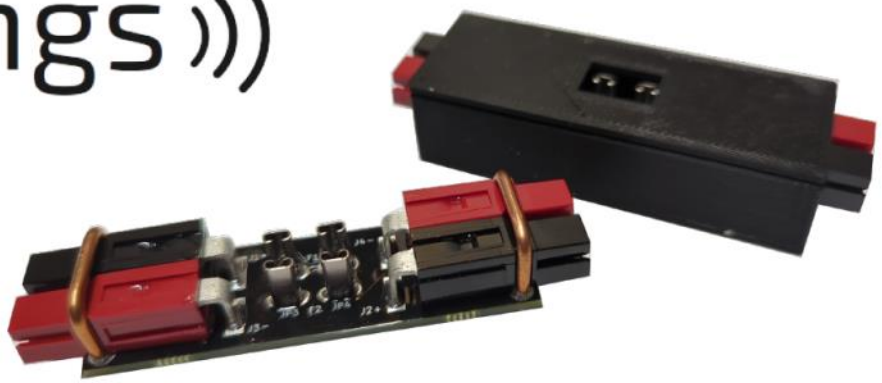
03/15/2024

The theme for 2024 ARRL Field Day is "Be Radio Active." The event will run on June 22 - 23, and it will be one-part contest, one-part emergency communications exercise, and one-part open house -- and a great time. The theme encourages radio amateurs to take advantage of the peak of Solar Cycle 25, which we are nearing. Activity this year is likely to be extremely high thanks to favorable solar conditions. The upper HF bands, such as 15 and 10 meters, should benefit most from the Cycle's peak.

There are resources available already for clubs and individuals to make their Field Day plans. ARRL will publish more information and tools so that hams can make the most of the event as it draws near. Amateurs interested in learning more are invited to join the Field Day Facebook group to connect with others who are planning for the big weekend.

Find links to all of the resources on the ARRL Field Day web page at www.arrl.org/field-day.

HamThings



Chris N9CVR is selling Powerpole Fuse Blocks. They are designed for mini APM/ATM blade fuses, up to 30 amps. Each Fuse Block weighs only 0.8oz!

Club member pricing: $13 for a kit, $9 for an enclosure; $29 for a complete Fuse Block.
Talk to Chris, good on QRZ, or HamThingsLLC.etsy.com,
Use promo codes W9ZLCLUBPRICE and W9ZLHANDDELIVER

WANTED: Used HAM Gear

Do you have some old HAM gear laying around that you don't know what to do with it? If so, you are in luck. Consider donating your unneeded and functional HAM gear to the youth at the Boy Scout Camp at Gardner Dam, Matt Surprise (KD9WAW) is making plans to build a HAM radio shack at Gardner Dam. The equipment would be used to showcase the hobby to youth from around Wisconsin, and be a place for young HAMs to operate from while at camp. If you have some gear to donate, contact Matt at kd9waw@gmail.com.

Social Saturday
April 6, 2024
9:00 am

The Surgeon General concluded that eating breakfast with HAM operators will put a smile on your face.
Our next Social Saturday is just around the corner. Stop by for some breakfast and fellowship with your fellow club members.

Golden Corral
1169 North Westhill Blvd.
Appleton, WI 54914

FCARC Ham Exams
June 1, 2024

Registration starts at 8 am and ends at 9 am. Preregistration is encouraged. A government issued picture ID is required along with proof of your current license. Please see the ARRL.org website for license information and other forms of acceptable ID. The application requires a **Federal Registration Number** and a valid **email address**. FRN's can be obtained free of charge on the FCC.gov website in the ULS section.

Details on each testing date will be posted on the FCARC website.

Cell phones must be silenced and put away during exams. Non cell phone calculators are permitted. Programmable calculator memories must be cleared and are subject to examination by a VE. Cost of the exams are set by our VEC, the ARRL, at $15.

If you fail an exam you may take a different version, time permitting, but you will be charged another $15. If you are successful you may take the next element during that session with no charge.

If you have any questions concerning FCARC Exams or to preregister contact Rick Kosiorek at (920) 809-1010 or WJ9K.mail@gmail.com

WOLF RIVER COILS LLC
Silver Bullet Antenna

From the guys who brought you misfit coils, Wolf River Coils LLC now has misfit collapsible whips.

102 inch collapsible SS whips $15.00 or 3 for $40

213 inch collapsible SS whips $25.00

Now that Wolf River Coils LLC has incorporated a CNC Milling machine for coil production their supply of misfit coils is dwindling as we no longer create a misfit. So if you ever wanted to purchase a misfit SB1000 or SB Mini now is the time because when they're gone, they're gone.

SB1000 sells for $20.00 and the SB Mini sells for $15.00.

Contact Gary KB9AIT or Terry N9AOT to purchase.

FCARC Club Gear

On sale now at http://www.jse-repair.com

Contact Jeff on his website for information on items that you don't see, but would like. He stocks and makes a wide variety of POTA clothing and flags, hats, club shirts, as well as radio covers.

FCARC Lending Library

Chris Reitz, N9CVR
Head Librarian

The FCARC lending library is a repository of references, equipment, and supplies that club members are willing to loan out to other club members. If you would like to borrow an item from the lending library contact the owner and arrange to borrow the item. If you have something you would like to list in the lending library, contact Chris Reitz (N9CVR) to have your item listed.

Library Catalog

Current As Of 3/27/24

Item	Make	Model	Owner	Notes
Coax / Powerpole crimper			N9CVR	contains all required tools for crimping coax and power-pole ends, except wire stripper for powerpoles
Power Meter	Diamond	SX-200	KD9UHZ	
RF Preamp	Ameco	PT-3	KD9UHZ	
Manual Antenna Tuner	MFJ	MFJ-945E	KD9UHZ	
TDR pulse generator	-	-	N9CVR	For Time Domain Reflectometry
TDR potentiometer	-	-	N9CVR	For finding characteristic impedance of TX line. Broken as of 2023.01.29, working on fixing.
75m/40m NVIS dipole	-	-	N9CVR	Requires a tree or pole and some open space to deploy
2m/70cm tape measure			N9CVR	Portable, directional antenna. SO-239 connection. Good
offset attenuator	KC9ON		N9CVR	for fox hunting
20ft fishing pole			N9CVR	Good for portable installations where trees don't exist
misfit 213in whip	Wolf River Coil		N9CVR	Misfit whip - skinniest section doesn't go up (~6in). 3/8"-24 threaded base
Microbit v2 (x2)	BBC	Microbit	N9CVR	USB/Bluetooth Microcontroller with 2.4GHz radio capability and access to library of programs for it
Antenna Analyzer	MFJ	208	WI9MMM	2m Only Antenna Analyzer
2m mobile radio	Yaesu	FT-1500M	N9CVR	2m / Analog FM / 50W + WX.
Code Practice Oscillator	Pacific Antenna	CPO	N9CVR	From club build day. There are 3 in my household, so feel free to borrow one!
2m wattmeter/SWR meter	Shurecom	SW33	KD9TXA	SMA connectors
2m J-pole antenna	-	-	KD9TXA	SO239 connector
Cable tester			KD9TXA	For RJ45 and RJ-11 modular cables
Modular connector crimper			KD9TXA	For RJ45 and RJ-11 modular cables
Coax crimper			KD9TXA	For RG6 (75 ohm cable company coax)
Tripod stand for J-pole			KD9TXA	Ideal for field day. About 6ft height
800W generator			KD9TXA	Gasoline powered

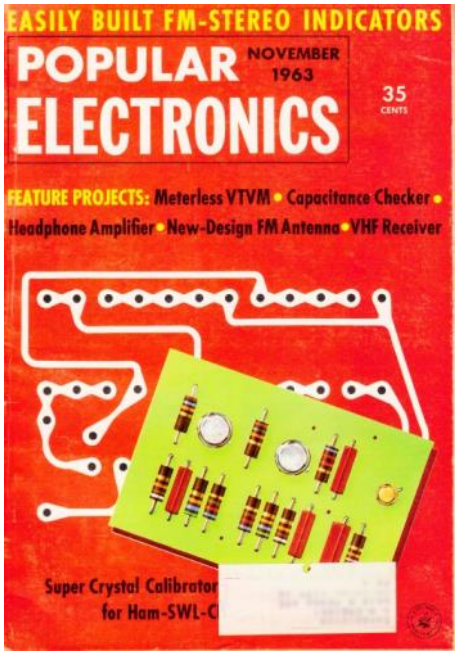
"Well, tell VK2AX it isn't 12 noon here!"

The comic to the left was taken from the May 1959 edition of "Popular Electronics" Magazine, in the section "Hobnobbing With Harbaugh".



HAM Radio Trivia

Try your luck at answering these HAM trivia questions. The answers are at the bottom.

1. Greenland falls into which ITU region?

A) 5 B) 1 C) 2 D) 2 & 3

2. What part of the early MODEL 'T' FORD car was used by hams as a part of their spark transmitter?

A) The headlight elements B) The battery C) The distributor points
D) The wood encased ignition coil.

3. How fast do radio waves travel in a vacuum?

A) 300,000 kilometers per hour B) 186,000 kilometers per second
C) 186,000 miles per hour D) 300,000 kilometers per second

4. At short ranges, the best reception occurs when the receiving antenna is oriented the same way as the transmitting antenna.
A) True B) False

5. As of 1999, the country with the most amateur radio licenses was:

A) USA B) Japan C) China D) Russia

1. C) 2 | 2. D) The wood encased ignition coil. | 3. D) 300,000 kilometers per second | 4. A) True | 5. B) Japan

Recruit a New Member

Have you met someone interested in Amateur Radio or is already a HAM and would like to join a club? If so, bring them to our next general membership meeting and/or have them fill out an application online. Dues are $20 per year. Share the newsletter with them to inform them of the club calendar and announcements for upcoming activities.

FCARC Foxhunts

The next Fox Hunt will be April 6, 2024.

147.555 MHz
See you out there!

Do you have something to share with the club? Become a guest contributor to the monthly FCARC QSO'er newsletter.

To get your announcement, item for sale, or article to share in the newsletter, send a copy of your piece to ke8kwf@gmail.com and Gene will do the editing and publishing for you.

Feel free to send photos with your submissions. Gene will crop your photos and touch them up to make sure they fit in your article.

If you have an item, rig, QSL card, or anything related to Amateur Radio and want to share it with club members, bring it to the club meeting for **SHOW AND TELL**.

A 2-3 minute section put into the agenda for fellow hams to share items they find useful or promotes Amateur Radio.

Meeting Information

Maplewood Middle School
1600 Midway Road Menasha, WI 54952.
Community Room
Enter thru Door 17
Meetings start at 7:00 PM

Meetings are held on the third Monday of each month. Check the FCARC calendar for more details.

The FCARC Board of Directors meets on the *second Monday* of each month at Maplewood Middle School. Club members are welcome to attend.
